Please ensure this tracking sheet is completed as a group, as it will be used to monitor your individual participation within the team.

Team Members	Role/ Responsibilty	Email				
Habibllah Ayoola Ayodele	Manual gradient-descent calculations; interactive EM height test; Bayesian raw-count table and worked example; gradient-descent iteration table; README preparation.	h.ayodele@alustudent.com				
Keira Mutoni	Bayesian probability and gradient-descent code implementations; EM cross-review; individual manual update; presentation preparation.	m.ineza1@alustudent.com				
Merveille Shekina Ineza	EM implementation, tracking table and graphs; Bayesian and gradient-descent cross-review; individual manual update; presentation preparation.	m.keira@alustudent.com				

Task Allocation and Tracker

	Task Allocated	Assigned Member	Deadline	Completion Status (Not Started/In Progress/Completed/Did not participate)	Reviewed by Team? (Yes/No)	Comments
	Implement and review the EM algorithm	Shekina, Keira and Habibllah	10/25/2026	Completed	Yes	
	Implement and review Bayesian probability	Shekina, Keira and Habibllah	10/25/2026	Completed	Yes	
	Complete manual gradient-descent calculations	Shekina, Keira and Habibllah	10/25/2026	Completed	Yes	
	Implement and review gradient descent in Python	Shekina, Keira and Habibllah	10/25/2026	Completed	Yes	
	Prepare final submission and presentation	Shekina, Keira and Habibllah	10/26/2026	Completed	Yes	

Meeting Attendance Log

Meeting Date	Agenda	Facilitator	Attendees	Key Discussion Points	Next Steps	
10/21/2026	Review the assignment and allocate initial responsibilities.	Habibllah	- Habibllah Ayoola Ayodele - Keira Mutoni - Merveille Shekina Ineza	Reviewed the four assignment parts and rubric. Allocated the initial EM implementation to Shekina, Bayesian probability and gradient-descent code to Keira, and manual calculations to Ayoola. Discussed the shared repository and required submission files.	Develop the initial solutions, commit work to GitHub and prepare results for team review.	
10/23/2026	Review initial solutions and allocate cross-contributions.	Habibllah	- Habibllah Ayoola Ayodele - Keira Mutoni - Merveille Shekina Ineza	Reviewed the notebooks and identified improvements. Divided cross-work so every member could contribute beyond their original task. Discussed the EM interpretation, Bayesian counts and consistency between manual and coded gradient descent.	Implement the agreed improvements, complete each member's manual update and save individual contributions to GitHub.	
10/26/2026	Review final outputs and prepare the submission.	Habibllah	- Habibllah Ayoola Ayodele - Keira Mutoni - Merveille Shekina Ineza	Compared gradient-descent outputs with the manual calculations. Reviewed notebook results, README content, graphs and required PDFs. Discussed presentation participation and the evidence of individual contributions.	Complete any remaining corrections, upload the final documents, verify links and rehearse explanations for all four parts.
